Wandquerschnitt

Fenster

The diagram illustrates the vertical alignment of the building's floor level (Opaska) relative to the ground level (Teren zielony). The ground level is represented by a jagged line, and the floor level is a solid horizontal line. A vertical dimension line indicates a height difference of 0.17m between the two levels.

The diagram shows a cross-section of the ground. On the left, the area is labeled "Teren utwardzony" (reinforced ground) and contains a stippled pattern. On the right, the area is labeled "Chodnik" (sidewalk) and is a solid grey. A vertical line separates the two areas. Above the line, the number "0" is written on both sides, indicating the ground level. Below the line, the ground is shown as a solid grey mass.
